Tom,

I want to thank you for the professionalism and dependable service provided by you and the employees of your company.

I am very impressed with the quality of work and caliber of personnel provided by your company in support of Tucson Electric Power, including: investigative surveillance matters and workplace violence case monitoring support, Quick Reaction Force requirements for supplementary security coverage, and assistance with policies and procedures.

In the state of Arizona there is not another company capable of providing these services and meeting the needs of Tucson Electric Power in this area. Bulletproof Securities has always been reliable and responsive on short notice.

Feel free to use me as a professional reference for the services provided by Bulletproof Securities, Inc.

Regards,
